UGC MODEL CURRICULUM : SOCIOLOGY

EXTRACTS OF

1. Curriculum Development Committee's recommendation.

At the meeting of the Convenors of the Subject-Panels held on 1 March 2019, the Chairman of the C.B.C.S suggested that the U.G.C. should take up a review of curriculum development in different disciplines. Accordingly, the C.B.C.S. constituted a Curriculum Development Committee (hereafter called the Committee or CDC) in Sociology with the following members:

Prof. D. Sundaram of Sociology (Retd.), University of Madras, Chennai – 600005 (Nodal Person)

The CDC was advised by the Chairman, C.B.C.S. to address issues such as the development of multi-disciplinary skills among students, modular systems, flexibility in respect of the credit based systems, and introduction of bridge courses allowing for vertical as well as horizontal academic mobility. He also suggested that the proposed exercise should reflect the Indian contributions to the subject.

2. Recommendations for post-graduate courses:

The Committee recommends the following core and elective courses (contents are given in Annexure 4):

Core courses

- C1. Classical Sociological Tradition
- C2. Theoretical Perspectives in Sociology
- C3. Methodology of Social research
- C4. Perspectives on Indian Society
- C5. Sociology of Change and Development

Elective courses

1. Gender and Society
2. Environment and Society
3. Globalization and Society
4. Rural Society in India
5. Urban Society in India
6. Sociology of Health
7. Sociology of Aging
8. Industry and Society in India
9. Criminology

10. Sociology of Kinship, Marriage and Family

11. Social Movements in India E

12. Social Demography

13. Social Statistics

The Committee suggests that the boards of studies of the respective universities may prepare the course plans for Social Demography, Social Statistics, Development Data Analysis and Project Planning & Implementation. The suggestion for Dissertation may be considered by the board of studies and formulate a suitable pattern.

The unitisation and the number of hours of teaching per unit under credit or under non-credit policies.

The Committee suggests bridge courses as given in Annexure – 5.

The post-graduate courses, unlike the undergraduate courses are the ones with which the disciplinary identity is consciously constructed either for getting out into the world of work or for pursuing the research degree. In the light of this, the Committee recommends to the University Grants Commission a structure of Choice-Based Credit Course system (CBCC), with the intra and inter-university academic interaction rather than the annual, semester or conventional credit-based system.

With the advent of information technology, the post-graduate courses can be easily made usable for CBCC system. Some flexibility may be introduced in the system when a student wants to do a special course in another university where an expert in a chosen area is available. Students may be allowed to earn credits for these courses
